

SINGLE or DUAL FEED THROUGH (for 10000 & MX Series Probes)

Metrix* **Model 5494-01** Single Feed Through Extension Cables or **Model 5494-02** Dual Feed Through Extension Cables for 10000 and MX Series Probes. Seals cable to 150 PSI (1035 kPa).

All Metrix MX8031/MX2031 extension cables are part of the 10000 series part number designation for agency approvals. The 10000 series P/N will appear on the product's label along with the MX8031 or MX2031 part number.

SPECIFICATIONS

Seal Pressure Rating: 150 psig (1035 kPa)

Temp. Rating: -40°C to +177°C

Gases Sealed: Air, Nitrogen, Propane

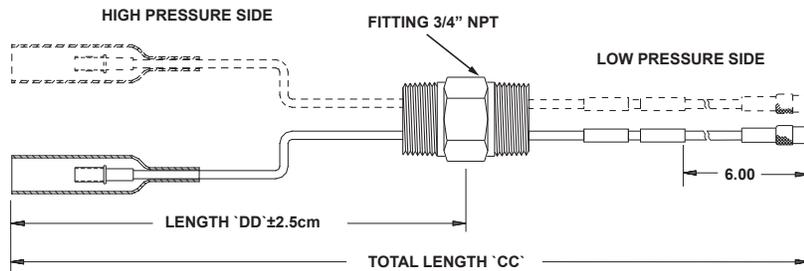

WEIGHTS & DIMENSIONS Dimensions in mm(inches)

0.13 kg (0.29 lb) for 5m, without armor

0.15 kg (0.33 lb) for 9m, without armor

5494-02 Dual Feed Through (hidden lines)

5494-01 Single Feed Through

HOW TO ORDER

5494 -				A A		+			B B		C C		D D		=	
		Feed Through	Probe Length			Cable Type		Cable Length			High Pressure Length		System Length			
0	1	Single Feed Through	0.5m		8	0	MX8031	4	5 = 4.5m	2	0 = 2.0m Typical		5m			
			1.0m		2	0	MX2031	4	0 = 4.0m	0	5 = 0.5m Increments		5m			
0	2	Dual Feed Through	0.5m		7	2	7200 Series	8	5 = 8.5m	0	5 = 0.5m Minimum		9m			
			1.0m					8	0 = 8.0m				9m			

EXAMPLE

5494 - 01 - 20 - 45 - 25 = MX2031 Single Feed Through Extension Cable with a 5m System Length with the Feed Through 2.5m from the probe connector.

(Combine with 0.5m Probe Length for a 5m System Length)
